The Houston Port Book

Vol. 33  FALL, 1955  No. 2
ROUTE YOUR CARGO

the Lykes way!

6 LYKES TRADE ROUTES

CONTINENT LINE — From New Orleans, Houston, Galveston, other U. S. West Gulf ports, and Tampa, to Continental Europe, Scandinavia and the Baltic.

MEDITERRANEAN LINE — From U. S. Gulf and South Atlantic ports to Portugal, Spain, France, Italy, Greece, North Africa and other Mediterranean and Black Sea areas.

AFRICA LINE — From U. S. Gulf ports to South and East Africa and the Island of Madagascar.

ORIENT LINE — From U. S. Gulf ports to The Philippines, Japan, Korea, China, Federation of Malaya, Indonesia and other Far Eastern areas.

CARIBBEAN LINE — From Houston, Galveston, Lake Charles and other U. S. West Gulf ports to Cuba, Puerto Rico, Dominican Republic, Haiti, Venezuela, Aruba, Curacao, East Coast of Colombia and Canal Zone.

GULF PORTS are efficient gateways to and from overseas trade areas;

LYKES cargoliners are regularly scheduled — at frequent intervals;

LYKES provides the careful attention to detail required by your specific exports and imports. For experienced, dependable shipping, route GULF PORTS and LYKES.

problem liquids are stored safely in General American tank storage terminals

Easy-to-handle liquids and problem liquids alike... they're all in a day's work for the men at General American terminals. Storage capacity of over half-a-billion gallons is available for any liquid that can flow through a pipeline.

Facilities are also available for blending to your specification... for drumming, barreling and canning to meet your needs. You get the privacy, service, safety and flexibility of your own terminals without capital investment.

By maintaining liquid inventories at General American terminals, you can fill rush orders for your customers or meet your own needs quickly, efficiently and economically.

It Pays To Plan With General American

More raw materials and finished products are being transported on rivers, canals, lakes and harbors than ever before in history. Dravo has played a leading role in this expanding waterways economy since 1915.

The 3500 hulls launched at Dravo's two shipyards are an experience backlog on which you can draw for planning, design and construction to realize the maximum in river, harbor or coastal transportation economy. Shippers and barge fleet owners are invited to call our Houston office, J.Ackson 8674; or write Dravo Corporation, 1303 Prudential Bldg., Houston 25, Texas.

When freight is to move into or out of the 14 mid-continent states directly served by the Rock Island Lines (also to and from the gulf ports of Houston, Texas City and Galveston), have your instructions read "Ship via Rock Island." Then—

(A) An able and willing R-I personnel makes sure every shipment is handled "just so."

(B) Heavy-duty ROCKET FREIGHTS, operating on fast schedules, go into hauling action.

(C) Freight reaches its destination when and as wanted.

RESULT: Worry-free consignors and satisfied consignees.

For freight information, consult

How Sheffield Steel Serves a Booming Market

The Liquefied Petroleum industry is flashing one of the most phenomenal growth records on the industrial scene today. From one million in 1940, consumers of this heat-rich, clean fuel have multiplied to nine million.

Along with matching Sheffield steel plate for forming into tank shells, the deep drawn, semispherical Sheffield tankheads pictured go to tank manufacturers across the nation.

The uses of LP gas are numerous and expanding. On the farm, it performs such chores as cooking, heating, refrigeration, machinery and tractor propulsion, crop drying and weed-burning—and now air conditioning.

In addition to this growing LP gas market for these pressure vessels made of Sheffield steel components, another big potential market looms up in the handling of liquid fertilizer. It seems a certainty the demand for pressure vessels will continue. If you have an active interest in this booming industry let us tell you how we can serve your need.

In bakeries, mills, supermarkets, hospitals, on production lines — wherever there's a moving job to be done, you'll find cotton doing it.

Cookies ride from oven to package, groceries from basket to checking counter, meals travel the length of hospital kitchens — all on stout cotton belting. And conveyor belt systems reinforced with cotton even carry coal and ore for miles, from mines to river barges and rail cars.

“Speedwalks,” the amazing new moving sidewalks for rail and air terminals and shopping centers, open still another market for cotton belting.

Because it's strong, long-lasting and economical, cotton is useful in many commercial operations.

When the job calls for rugged dependability, industry counts on cotton.

The best buy in buildings is METALLIC...

For the best in buildings you can't beat Metallic. They are made better, look better and last longer. Metallic gives you many extras, including—

1. Every structural member designed to withstand winds of hurricane force.
2. Framework of heavy structural shapes. No light gauge cold formed sections.
3. Best quality, deeper corrugated covering—stronger, more water tight.
5. Metallic's reputation and integrity assure you top quality. Metallic stands behind its products today and in the years to come.

Metallic Buildings are immediately available in clear span widths to 80' and can be ready for occupancy in a matter of two to three weeks. Greater spans can be furnished with fast, firm delivery dates.

There is no limit to the adaptability of Metallic Buildings. Thousands are in use today. Whatever your building needs may be—commercial, industrial, or agricultural—Metallic can build it for you better.

CABLE ADDRESS: HOUPLT
HOUSTON 4, TEXAS
We've been in Houston quite a spell now, and the longer we stay, the more we like it.

We came here from Philadelphia to find more room in which to make chemical intermediates for our plastic products. We found it.

More than that, we found wonderful people, fine employees, and—well, you know what Texas has got as well as we do.

We feel right at home, now. That’s why we want to take this opportunity to say “thanks for making us so welcome.”

“Piggyback” takes the load off the road!

SP’s new trailer-on-flatcar operation gets heavy trucks off the highways and on the rails.

Moves freight fast. Dependable store-door pickup and delivery of full truck load and less than truck load shipments. Rates are competitive with highway carriers.

“Piggyback” is a happy combination of truck and train—another example of the way SP works to offer you complete transportation service. On-time freight shipments or fast and fancy passenger trips—we do our best to give you what you want.

THE EMBLEM OF QUALITY IN PETROLEUM PRODUCTS
“If the price of COFFEE had stayed as low as that of
NATURAL GAS... Coffee would now sell for 28¢ a pound”

“Even at much higher prices, natural gas service would still be my biggest bargain. I wish the cost of everything else had stayed as low.”

There’s no doubt about it... the average cost of natural gas delivered to United’s residential customers is less today than it was 20 years ago. And you can’t say that about much of anything else you buy.

Just a few pennies a day will provide natural gas for all your cooking or refrigeration, water heating or clothes drying, heating or air conditioning.

Make the most of your dependable natural gas service. It serves you best when you use it most.

See the smart new gas appliances now displayed at your local dealers and United Gas offices.
